BHADERWAH CAMPUS

BACHELORS IN COMPUTER APPLICATION
(BCA-1ST SEMESTER 2025-26)
PRACTICAL FILE
COMPUTER FUNDAMENTALS

SUBMITTED BY:

Hashir Javed
113040008

SUBMITTED TO:

Dr. Ashok Sharma
(Course coordinator)

Dept. Of CS and IT

ACKNOWLEDGEMENT

I would like to express my gratitude to all those people who helped me to complete this practical file. I want to thank **Department of computer science and IT** for providing me all the tools and resources for the completion of my practical file.

I have further more to thank our respected teacher **Mr. CHANDER DEEP SIR** encouraged me to move ahead and complete my work in time. I am also bound to our Assistant Programmer **Mr. CHANDERDEEP SINGH SIR** whose help, simulating suggestions and encouragement helped me all the time during my work.

Thank you.

Hashir Javed

ROLL NO

BCA 1st Semester

113040008

CERTIFICATE

This is to certify that **Hashir Javed** student of **BCA-1stsemester** bearing university **Roll no. 113040008** has completed the required number of practical of **Computer Fundamentals** under the guidance of class teacher **Mr. CHANDER DEEP SIR** from the Department of Computer science and IT, Bharderwah campus, University of Jammu.

USING THE INSERT and break option insert a page in your document insert page number at a bottom of the page using page number option .insert a table like draw

the border of the table using dew table option select the row of the table and dealt the entire row insert some more columns to the right in the table..

Steps

➤➔Inserting a Page

1. Open your document in Microsoft Word.
2. Click on the "Insert" tab in the ribbon.
3. Click on the "Page Break" button in the "Pages" group.
4. Alternatively, you can press "Ctrl + Enter" to insert a page break.

➔Inserting Page Numbers

1. Click on the "Insert" tab in the ribbon.
2. Click on the "Page Number" button in the "Header & Footer" group.
3. Select "Bottom of Page" and choose a page number format.

4. Click "OK" to insert the page number.

→Creating a Table

1. Click on the "Insert" tab in the ribbon.
2. Click on the "Table" button in the "Tables" group.
3. Select "Draw Table" and draw the border of the table.
4. Alternatively, you can select "Insert Table" and specify the number of rows and columns.

→Deleting a Row

1. Select the row you want to delete.
2. Right-click on the selected row.
3. Select "Delete" > "Delete Row".

→Inserting Columns

1. Select the column to the right of where you want to insert the new column.
2. Right-click on the selected column.
3. Select "Insert" > "Insert Columns to the Left".

SNO	ITEM	COST	
1	APPLE	40	
2	BANAN	30	
3	GRAPES	50	

→Adjusting Table Properties

1. Select the table.
2. Click on the "Table Tools" tab in the ribbon.
3. Adjust properties such as border style, width, and alignment as needed.

PRACTICAL NO 3

Insert header and footer using the header the header and footer option draw a text box and insert the following text insert excel sheet worksheet using object option in insert menu. Create a hyperlink and Here are the steps to achieve the desired outcome:

➔ Inserting Header and Footer

1. Click on the "Insert" tab in the ribbon.
2. Click on the "Header" or "Footer" button in the "Header & Footer" group.
3. Select a pre-designed header or footer, or choose "Blank" to create your own.
4. Type in your desired header or footer text.

➔ Drawing a Text Box and type of your desire text

1. Click on the "Insert" tab in the ribbon.
2. Click on the "Text Box" button in the "Text" group.
3. Select "Draw Text Box" and draw the text box on the page.

4. Type in your desired text.

OK" to insert Inserting Text

Insert the following text into the text box:

"This is a sample text."

➔ Inserting Excel Sheet Worksheet

1. Click on the "Insert" tab in the ribbon.
2. Click on the "Object" button in the "Text" group.
3. Select "Create from File" and browse to your Excel file.
4. Select the worksheet you want to insert.
5. Click "the worksheet."

➔ Creating a Hyperlink

1. Select the text or image you want to use as the hyperlink.
2. Right-click on the selected text or image.

3. Select "Hyperlink".
4. Enter the URL or file path you want to link to.

5. Click "OK" to create the hyperlink.

➔Attaching a File to the Hyperlink

1. Right-click on the hyperlink.
2. Select "Edit Hyperlink".
3. Click on the "Browse" button next to "File".
4. Select the file you want to attach.

5. Click "OK" to attach the file.

➔Inserting a Bookmark

1. Select the text or location you want to bookmark.
 2. Click on the "Insert" tab in the ribbon.
 3. Click on the "Bookmark" button in the "Links" group.
 4. Enter a name for the bookmark.
 5. Click "Add" to insert the bookmark.
- attach a file to the hyperlink insert bookmark using book mark

Option Bookmark.

4. Review and correct any errors

➔Viewing the Document in Full Screen

1. Click on the "View" tab in the ribbon.
2. Click on the "Full Screen Reading" button in the "Document Views" group.

3. The document will be displayed in full-screen mode.

➔ Viewing the Document in Draft Mode

1. Click on the "View" tab in the ribbon.
2. Click on the "Draft" button in the "Document Views" group.

3. The document will be displayed in draft mode.

➔Zooming the Document

1. Click on the "View" tab in the ribbon.
2. Click on the "Zoom" button in the "Zoom" group.
3. Select a zoom level or enter a custom zoom level.

➔Adding a Bibliography

1. Click on the "References" tab in the ribbon.
2. Click on the "Bibliography" button in the "References" group.
3. Select a bibliography style.
4. Click "OK" to insert the bibliography.

5. Add sources to the bibliography by clicking on the "Manage Sources" button.

PRACTICAL NO6

Choose a paper size for the documents using size option. Split the text in three columns by using column options. Type the following line and give numbers to that line number option.

Steps

Here are the steps:

→ Choosing a Paper Size

1. Click on the "Layout" tab in the ribbon.
2. Click on the "Size" button in the "Page Setup" group.
3. Select a paper size from the drop-down menu (e.g., A4, Letter, etc.).

4. Click "OK" to apply the paper size.

→ Splitting Text into Three Columns

1. Select the text you want to split into columns.
2. Click on the "Layout" tab in the ribbon.
3. Click on the "Columns" button in the "Page Setup" group.
4. Select "Three" from the drop-down menu.

5. Click "OK" to apply the column layout.

➔ Adding Line Numbers

1. Select the text you want to add line numbers to.
2. Click on the "Home" tab in the ribbon.
3. Click on the "Paragraph" group dialog launcher (small arrow in the bottom-right corner).
4. In the "Paragraph" dialog box, click on the "Line and Paragraph Spacing" tab.
5. Check the box next to "Line Numbers".

6. Click "OK" to apply the line numbers.

PRACTICAL NO7

Add a table of content to the documents Update the Table of content insert foot note to the documents insert an end note to the documents insert an index into the documents create labels to the documents.

Here are the steps:

➔ Adding a Table of Content

1. Click on the "References" tab in the ribbon.
2. Click on the "Table of Contents" button in the "Table of Contents" group.
3. Select "Automatic Table 1" or "Automatic Table 2" to create a table of contents.

4. Click "OK" to insert the table of contents.

Updating the Table of Content

Contents

No table of contents entries found.

1. Click on the "References" tab in the ribbon.
2. Click on the "Update Table" button in the "Table of Contents" group.
3. Select "Update entire table" or "Update page numbers only".

4. Click "OK" to update the table of contents.

➔ Inserting a Footnote

1. Place your cursor where you want to insert the footnote.
2. Click on the "References" tab in the ribbon.
3. Click on the "Insert Footnote" button in the "Footnotes" group.

4. Type in your footnote text.

3. Click on the "Insert Endnote" button in the "Footnotes"

4. Type in your endnote text.

5. Click "OK" to insert the endnote.

Inserting an Index

1. Click on the "References" tab in the ribbon.
2. Click on the "Insert Index" button in the "Index" group.
3. Select the index type (e.g., "Run-in", "Indented", etc.).
4. Click "OK" to insert the index.

¹ Quality assurance

5. Click "OK" to insert the footnote.

➔ Inserting an Endnote and inserting index

1. Place your cursor where you want to insert the endnote.
2. Click on the "References" tab in the ribbon.
3. Click on the "Insert Endnote" button in the "Footnotes" group.
4. Type in your endnote text.

5. Click "OK" to insert the endnote.

➔Creating Labels

1. Click on the "Mailings" tab in the ribbon.
2. Click on the "Labels" button in the "Create" group.
3. Select the label type (e.g., "Address labels", "Shipping labels", etc.).

4. Click "OK" to create the labels.

PRACTICAL NO8

Use mail merge to send an officinal initiation to the employs of the company to attend a workshop

Steps

➔Step 1: Prepare the Data Source

Create a spreadsheet or database with the following columns:

- Employee Name

- Employee Title
- Department
- Email Address

➔Step 2: Create the Invitation Template

Open Microsoft Word and create a new document. Design the invitation template with the following elements:

- Company logo
- Official letterhead
- Date
- Employee name and title
- Workshop details (title, date, time, location)

Step 3: Connect to the Data Source

In Microsoft Word, click on the "Mailings" tab and select "Start Mail Merge" > "Step-by-Step Mail Merge Wizard".

- Select "Use an existing list" and browse to your data source (spreadsheet or database).
- Click "Next" to connect to the data source.

➔Step 4: Insert Merge Fields

In the invitation template, insert merge fields for the employee name, title, and workshop details.

- Click on the "Mailings" tab and select "Insert Merge Field".
- Choose the corresponding field from the data source (e.g., "Employee Name").
- Repeat this process for the other merge fields.

Step 5: Preview and Complete the Merge

Preview the merged document to ensure the data is correctly inserted.

- Click on the "Mailings" tab and select "Preview Results".
- Review the merged document for any errors or formatting issues.
- Click "Finish & Merge" to complete the merge.

➔Step 6: Send the Invitations

Save the merged document as a PDF or Word file.

- Click "File" > "Save As" and choose the desired file format.
- Send the invitations to the employees via email or print them for distribution.

[Official Letterhead]

PRACTICAL NO 9

Create a macro to insert a formatted table with previously defined rows and columns and with appropriate headings.

Steps Step 1:

➔ Open the Visual Basic Editor

Press Alt + F11 or navigate to Developer > Visual Basic in the ribbon.

➔Step 2: Create a New Module

In the Visual Basic Editor, click Insert > Module to create a new module.

Step 3: Write the Macro Code

➔Step 4: Save the Macro

Click File > Save (or press Ctrl + S) to save the macro.

➔Step 5: Run the Macro

Press Alt + F8 to open the Macro dialog box. Select the InsertFormattedTable macro and click Run.

The macro will insert a formatted table with the specified number of rows and columns,

along with the defined headings.

PRACTICAL NO 10

Perform arithmetic on five sets of two number number 1 number 2 ,add,sub,mul,div.

Implementation:-

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O
1	no.1	no.2	add	sub	mutli	div									
2	1	2	3	-1	2	0.5

PRACTICAL NO 11

Consider The problem of a stationery order for month of march .the description quantity and cost per item if to be calculated and the final cost per item involve a

add tax of two percent over the total of cost. The graph total and net total are to be displayed description quantity cost per item

Steps

Here are the steps to perform arithmetic operations on five sets of two numbers in Microsoft Word:

Step 1: Create a Table

Create a table with 6 columns and 5 rows. The columns will be for the two numbers, and the four arithmetic operations.

Step 2: Enter Numbers

Enter the five sets of two numbers into the first two columns of the table.

Step 3: Perform Arithmetic Operations

Use formulas to perform the arithmetic operations in the remaining columns.

Step 4: Calculate Formulas

Select the entire table and press F9 to calculate the formulas.

Implementation:-

	A	B	C	D	E	F	G	H	I	J
1	descpt.	Quant.	cost/item	total cost	sale tax	Gross cost

PRACTICAL NO 12

Select the let us consider problem of finding the total of average of the three subjects marks for five student in a class board exam

Steps

Here's a step-by-step solution to the problem:

Let's consider the problem of finding the total and average of the three subjects' marks for five students in a class board exam.

Step 1: Create a Table to Organize the Data

Step 2: Calculate the Total Marks for Each Student

Step 3: Calculate the Average Marks for Each Student

Sno.	Student name	Maths	physics	chemistry	total	Avg.	Min.	Max.	Mean
1	Rajest	89	77	56	222	74	56	89	74
2	Mukesh	89	78	33	200	66.66666667	33	89	66.66666667
3	Ambani	99	97	96	292	97.33333333	96	99	97.33333333
4	Adani	99	99	79	277	92.33333333	79	99	92.33333333
5	Birla	97	98	100	295	98.33333333	97	100	98.33333333
6	Ambuja	55	99	100	254	84.66666667	55	100	84.66666667
7	Reshma	90	45	92	227	75.66666667	45	92	75.66666667

PRACTICAL NO 13

USE VLOOKUP to search name of employees by their customer id

Order ID	Order Quantity	Free	Order Quantity	Free
1	123	10	50	5
2	130	10	100	10
3	153	15	150	15
4	210	20	200	20
